 The ears will naturally finish in a cup shape. To flatten, just push the cup down. It will

### **Attachment:**

- 1 Cut a triangle out of felt. Curve in corners, and use your hot glue gun to glue it onto the muzzle for a nose.
- 2 Sew the head to the body.
3. Sew on the ears (on the side 4-5 rounds down), arms (on the side 1 round below the seam between the head and body) and legs (They are only 1 round apart).
4. OPTIONAL: Tie ribbon around neck.

I hope the changes help everyone! I made another bear using the new changes below. Pretty much the same right? If you need any help, just leave a comment. ^^
