Important information about your BMO® Line of Credit

Periodically, we review our line of credit interest rates to ensure they are priced appropriately. Your new interest rate will be your current interest rate (as listed here on your statement) + **1.03%**. This rate change takes effect at the beginning of your June 2017 statement billing period and your new interest rate will be reflected on your July statement.

You will still get all the valuable benefits you enjoy today - for example, access to cash whenever you need it and interest charged only on the amount you use. We value our continued relationship with you and want to thank you for being our customer.

Should you wish to review your line of credit and current banking needs, please visit us at bmo.com/appointment to book an appointment at your local BMO branch. For general inquiries, please call at 1-877 CALL BMO (225-5266); TTY: 1-866-889-0889.
