NOTE: A limit of 20 returns has been imposed by the CRA on the number of returns that personal tax software can produce such that you cannot exceed 20 returns using UFile or any other NETFILE certified software.

Message from the CRA: The CRA has determined that a limit of 20 returns, whether printed or filed using NETFILE, is appropriate and sufficient for a NETFILE software product. This will allow even a large family to share one software product to prepare and file their tax returns. The CRA has asked that all software developers respect this limit in order to be certified for NETFILE.
