

# You Don't Know How it Feels - Tom Petty

**E                    A                    E                    A (x2)**  
Let me run with    you tonight    I'll take you on    a moonlight ride  
There's someone    I used to see    but she don't    give a damn for me

**E        B            E            A**  
So let's get to the point, let's roll another joint

**E    B            E            A**  
Turn the radio loud, I'm too alone to be proud

**E        D            A**  
You don't know how it feels

**E        D            A                                    E D A - E D A**  
You don't know how it feels...to be me

People come, people go, some grow young, some grow cold  
I woke up in between a memory and a dream

**E        B            E            A**  
So let's get to the point, let's roll another joint

**E    B            E            A**  
And let's head on down the road, There's somewhere I gotta go

**E        D            A**  
You don't know how it feels

**E        D            A                                    E D A - E D A**  
You don't know how it feels...to be me

My old man was born to rock but he's still tryin' to beat the clock  
Think of me what you will, I've still got a little space to fill

**E        B            E            A**  
So let's get to the point, let's roll another joint

**E    B            E            A**  
And let's head on down the road, There's somewhere I gotta go

**E        D            A**  
You don't know how it feels

**E        D            A                                    E D A - E D A X2**  
You don't know how it feels...to be me
